Fumigation of Cockroach in the Bin Chutes

Dear Sir/ Madam,

Please be informed that our term-contractor for the pest control will carry out cockroach fumigation to all of our estate's bin chutes **every Thursday morning from today onwards.**

Please **DON'T** use / open your bin chute **from 9:30am to 1:30pm every Thursdays.** Kindly seal your bin chute cover using masking tape before the fumigation starts, so that the cockroach will not be able to run into your unit.

Thank you for your kind co-operation.
