Dear Residents ,

INCIDENT OF IMPERSONATION

There have been 2 incidents when someone impersonated the Condo Manager. The impersonator called a service provider to make arrangement for certain work to be carried out the estate and even made complaint to a service provider about the service standard of that service provider.

We are treating the impersonation a serious matter. A police report has been made.

Photos of all working staff at Butterworth 8 are displayed at the notice board. The existing condo manager of this estate is Renald Ng.

We also suggest the following steps be taken to mitigate further impersonation. Please use the web portal for service request or feedback. Feedback form can also be obtained from the Management Office, if required. If you suspect of any impersonation, it is always good for you to ring or write to the Management Office for further verification.

All work for the common property shall only be authorised through the Management Office. No resident should activate any service provider for any kind of work at the common property.

Yours faithfully
