**RE: RESIDENTS TO ASSIST BY STEPPING UP MOSQUITO
CONTROL PROCEDURES DUE TO REDUCED ON-SITE
MANPOWER**

Dear Residents,

We are required by the Ministry of Trade and Industry (MTI) to reduce the number of staff physically on-site to the minimum required to continue providing essential services (i.e. Cleaners/Gardeners/Managing Agent/).

Rest assured, MA is working closely with the site cleaners to ensure that the baseline (essential) cleaning activities of critical areas are not neglected.

Due to the reduced number of maintenance staff on-site as well as this being the start of the mosquito breeding season, we would like to request that Residents step up mosquito control measures within your own premises, and to be watchful of these issues in your surrounding areas.

You may visit the website below to learn more about the 5-Step Mosquito Wipe-out within your own home:

<https://www.nea.gov.sg/dengue-zika/prevent-aedes-mosquito-breeding>

Please stay safe and well.

Your cooperation is greatly appreciated.

Thank you!
