BLK 64 BASEMENT 1 LOBBY DOOR

Please be informed that the lift lobby door at Blk 64 basement is currently slanted and cannot close properly, which may cause difficulties for residents trying to open it. The contractor has been engaged to inspect the door and we will provide an update once the issue has been resolved.

Additionally, the glass on the same door has been cracked and we are currently working with the insurance company to make necessary arrangements.

We apologize for any inconvenience caused.

Thank you.

With regards,
Ronnie
