

Dear Residents,

Hope this e-mail finds you in good health.

We would like to inform you that we will be conducting a series of tests in preparation for the Fire Certification renewal for Capitol Singapore. This is to ensure that the fire protection system is in place and to ensure working condition in the event of an emergency. This week, we will conduct a PA system testing for the pre-testing and the actual Fire Certification Inspection in November, both conducted by a Professional Engineer for Capitol Singapore.

These inspections are required by the local Fire law and National Standards.

The schedules are as follows;

Date	Details of works
Thursday, 14 October 2021 (9am to 12pm)	PA System Testing
Thursday, 28 October 2021 (9am to 12pm)	Pre-testing for Fire Certification Inspection
Thursday, 11 November 2021 (9am to 12pm)	Actual Fire Certification Inspection

During this testing and inspection, alarms will be sounding from time to time to test components of the fire alarm system. You may experience some disruption, however, no evacuation will be required.

We seek your understanding and we will try our very best to minimise the disturbance.

We apologise for any inconvenience caused.

Thank you.

Warmest Regards,

Concierge Team
