IMPORTANT NOTICE

Dear Residents,

Update No. 13 - COVID-19 END OF CIRCUIT BREAKER – PHASE I

It is indeed heartening to learn that the COVID-19 Circuit Breaker will be lifted on 1st June 2020. We would like to express our heartfelt thanks to all residents during this period in compliance with all the relevant measures implemented by the relevant Authorities.

With the lifting of the Circuit Breaker, we will be moving into Phase 1: Safe Reopening, some of the control measures introduced earlier will be different from what had been implemented.

Two new changes to note are as follows:

1. An individual household can receive two visitors per day from their immediate family members.
2. Renovation works suspended due to circuit breaker can now be resumed; subject to the approval from Building Construction Authority (BCA).

However, all common facilities will remain closed until further notice.

As such, with effect from 2nd June 2020, the Management Office will be opened on Saturdays.

Please note that you are required to wear a mask if you need to leave your house. Mask wearing is only not required when one is engaged in strenuous exercise such as running, jogging/brisk walking, cycling and other similar activities. Masks must be donned after one has completed the vigorous exercise.

Thank you for your understanding and stay safe and healthy.

Chay Jee Wah

General Manager
