IMPORTANT

Important Safety Notice: Do Not Throw Items/ Cigarette butts/ Splashed Water from Units to ground

Dear Residents,

We would like to raise a serious safety concern regarding items and water being thrown or splashed from upper floors. There have been reports of water and objects landing on balconies, window ledges, swimming pool, walkway canopy and even entering homes level 1 — causing damage and distress to affected residents.

This act is not only inconsiderate, but also a serious offence under Singapore law, classified as killer litter under the Penal Code. Such actions can lead to injury, property damage, and legal consequences including fines or imprisonment.

A firm reminder to all residents:

Do NOT dispose of items, rubbish, or liquids from windows or balconies.

Be mindful when cleaning or watering plants to ensure water does not spill over and affect lower units. (Please remind your helper and family members)

Smoking and disposal of cigarette butts is strictly prohibited in all common areas such as corridors, staircases, and lift lobbies.

If you choose to smoke within your unit, please ensure all cigarette butts are fully extinguished and properly disposed of inside your home.

We urge all residents to be considerate and vigilant. These actions endanger lives and undermine the safety and harmony of our community.

If you witness such incidents, please report them immediately to the Management Office or the relevant authorities.

Please monitor your children and make sure they not throwing toys and sharp objects.

Let's all do our part to keep Butterworth 8 safe, clean, and secure for all.

Thank you for your cooperation.
