Dear Sir /Madam

### **Emergency Shut Down of Electricity**

The management refers to the above subject matter.

We are currently facing a electricity cable issue at Block 81 level 6 and had activated the License Electrical Worker to come on site to rectify the issue tonight. The work will start around 7.30pm.

During the investigation work, we might have to **shut down electricity work to the entire block**. Please do not be alarmed if this happen. You might want to prepare torch light or candle light for the duration of the shutdown. It is estimated to take **between an hour to 3 hours** for this rectification work depending on the complexity of the issue.

Thank you for your kind attention.

Yours faithfully
